finally, control the video camera 105 and make sure it records the necessary information.

REMARKS

5

An interview was conducted with Ms. Greta Robinson on May 27, 2004 based on an agenda that had been submitted informally, copy enclosed.

10

In the discussion at the interview Ms. Robinson suggested that an amendment be filed directly to fax number 703-746-5657 including language indicating that "the first calendar" defined in claim 1 is by definition the paper calendar 101 seen in Figures 1 and 2. However, with respect to "the second calendar," this refers to any one of the other calendars, for example, to calendars 102 or 103 or 104. Hence, this is so stated now in a new amended first full paragraph on page 4 of the specification.

15

Accordingly, the specification has been further amended on page 4, as discussed with Examiner Robinson. But only more explicit language has been added in further describing the already described elements as symbolically depicted in the drawings. Therefore, no new matter is present in this application.

20

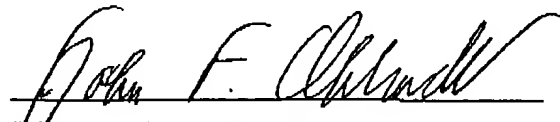

Ms. Robinson is thanked for the courtesy of the interview of May 27, 2004 and, in particular, for the suggestions with respect to the amendment of the specification. The ultimate conclusion reached is that this case is now considered in condition for allowance.

25

Respectfully submitted,

6-03-04
